AMONG US

22 April, 2022

INTRODUCTION:-

Among Us is an online multiplayer game from the developers at InnerSloth that has players working together to fix their crumbling spaceship while figuring out who the imposters are.

Forest Willard, also known as ForteBass online, 31, is a game developer and a co-founder of InnerSloth, the three-person indie game company that created the viral hit “Among Us,” which counted at its peak late last year half a billion players worldwide.

'Among Us' had a different name before it launched.

As a matter of fact, the working title was SpaceMafia.

SpaceMafia does a great job describing the game but Among Us was chosen as the title for the suspense and fear it conjures up through gameplay.

Since the game is based on social deduction and not really story-driven, the possibility of it doing exceptional business is rather small. So, despite the current craze surrounding the game, don't be surprised if Netflix gives this venture a pass.

Related: What is Among Us and WHY the hype?

HOW TO PLAY:-

Prepare for departure but beware the Impostor! Play with 4-15 players online or via local WiFi as you attempt to hold your spaceship together and survive, but be careful. One or more random players among the crew are Impostors bent on killing everyone!

Objective: -

~~Fill the group task bar or eject the Impostors~~

Complete all the tasks on the ship or eject Impostors to win.

Call emergency meetings if you see any dead bodies or suspicious behavior.

Check the Admin map and Security cameras to keep tabs on other Crewmates.

React quickly to undo the Impostor's sabotages.

Make sure you have your alibi ready in case you're falsely accused.

Vote to eject suspected Impostors. Hope you guessed correctly!

ABSTRACT:-

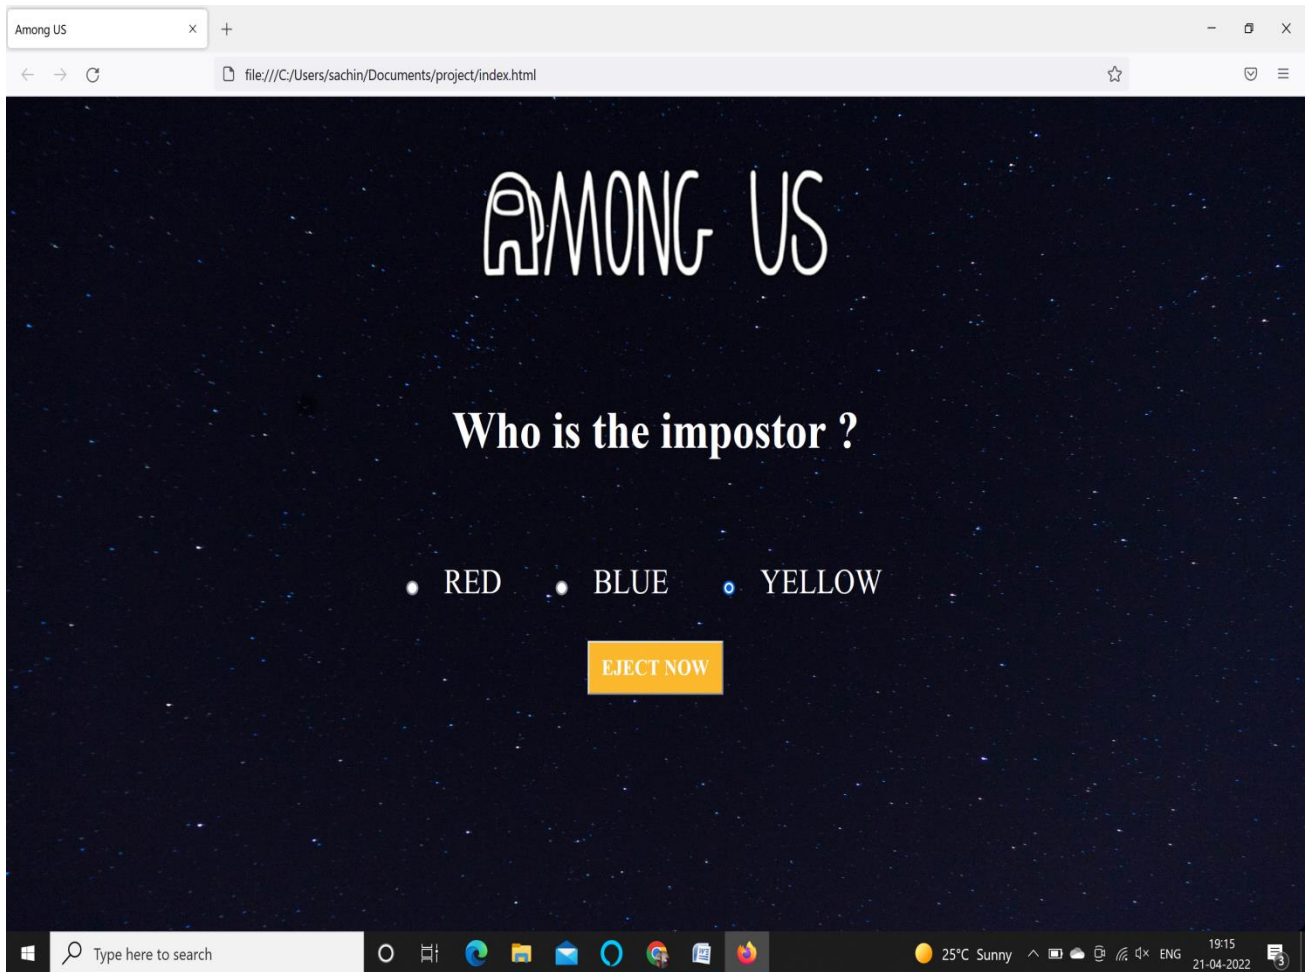

Among Us is a multiplayer game where 10 players get dropped into an alien spaceship, sky headquarters or planet base, where each player is designated with a private role of either a “crewmate” and an “impostor.” This is an online multiplayer social deduction game, and a player can either be a crewmate or an imposter.

Among Us is a party game of teamwork and betrayal.

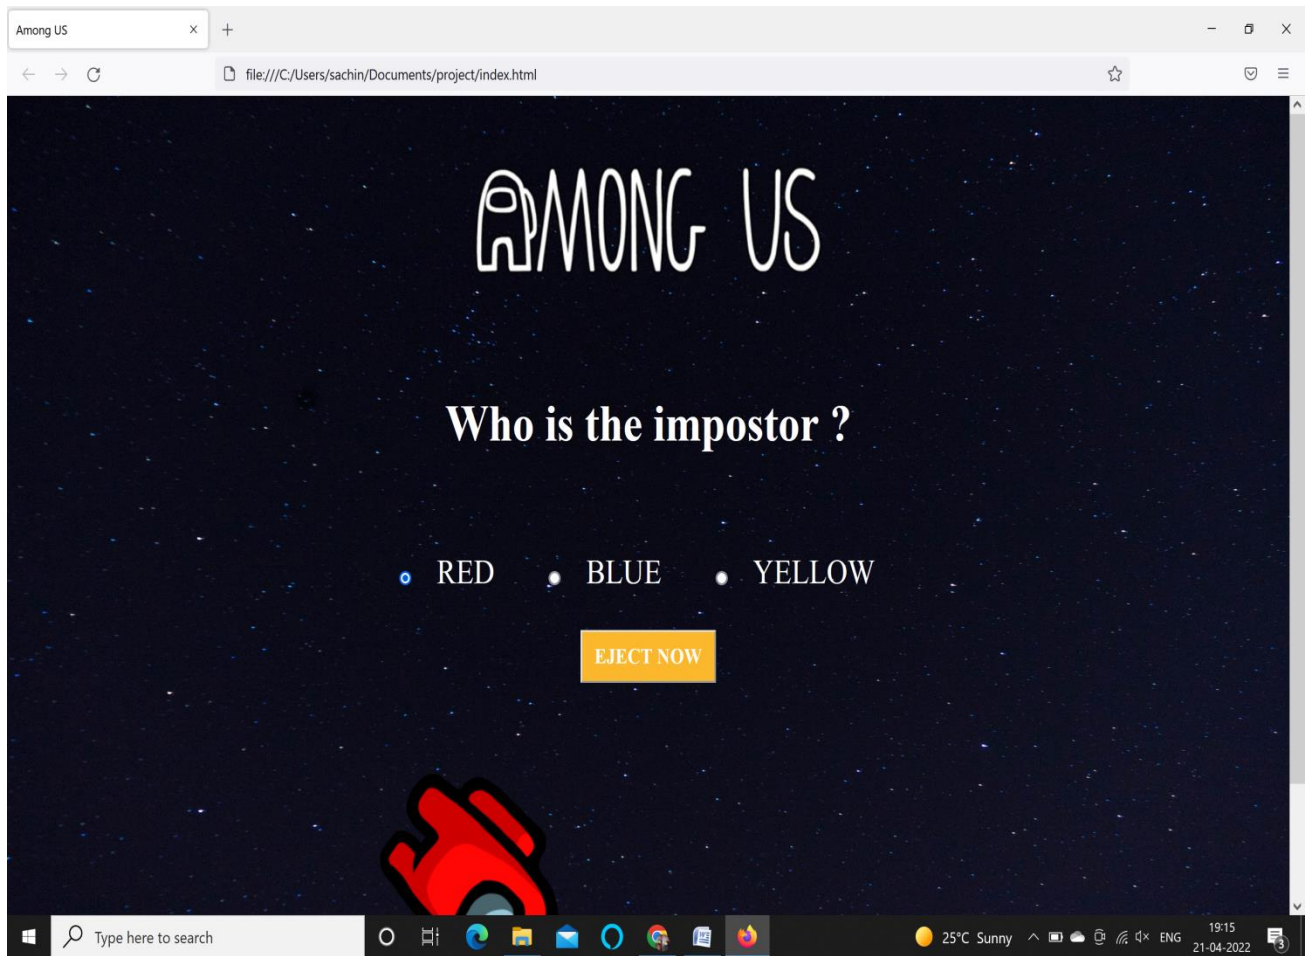

Crewmates work together to complete tasks before one or more Impostors can kill everyone aboard.

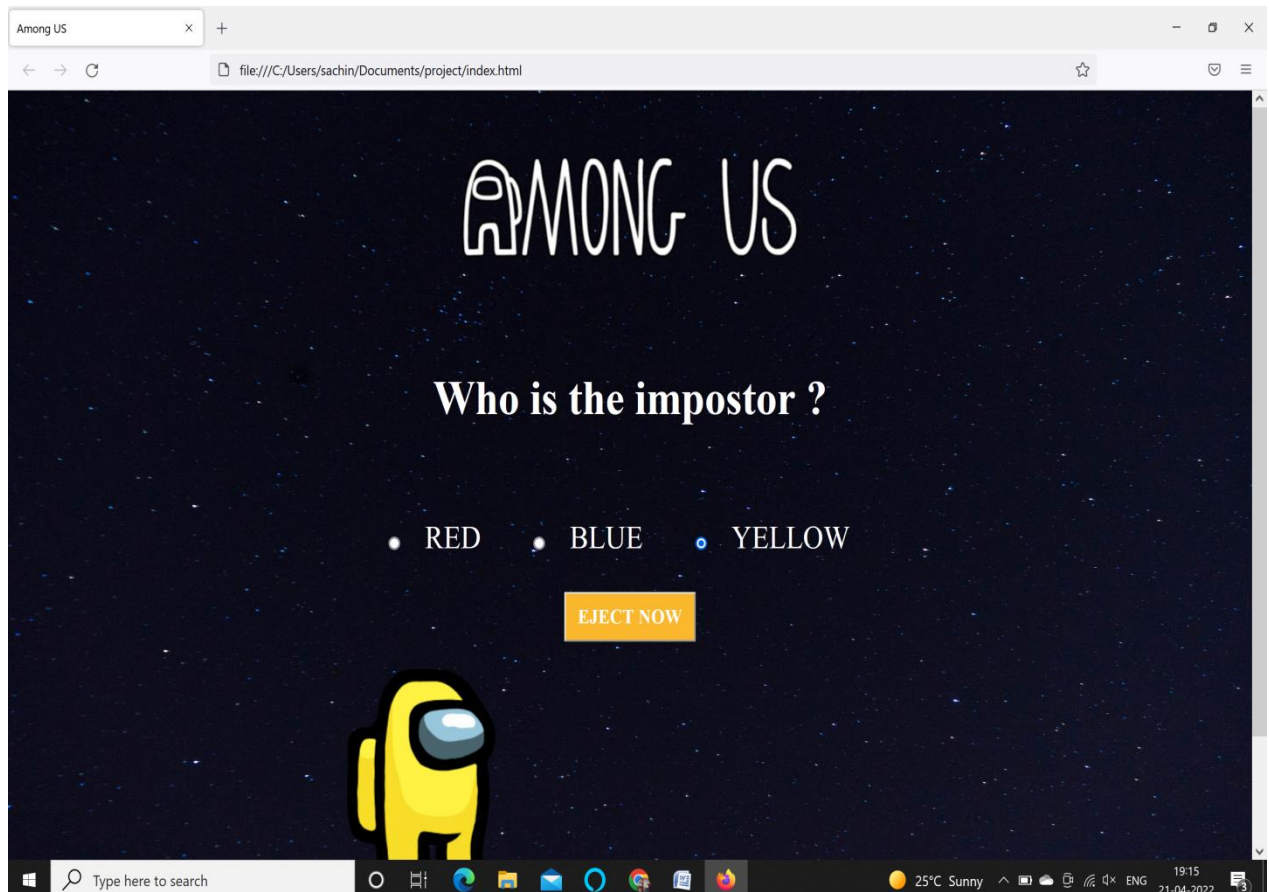

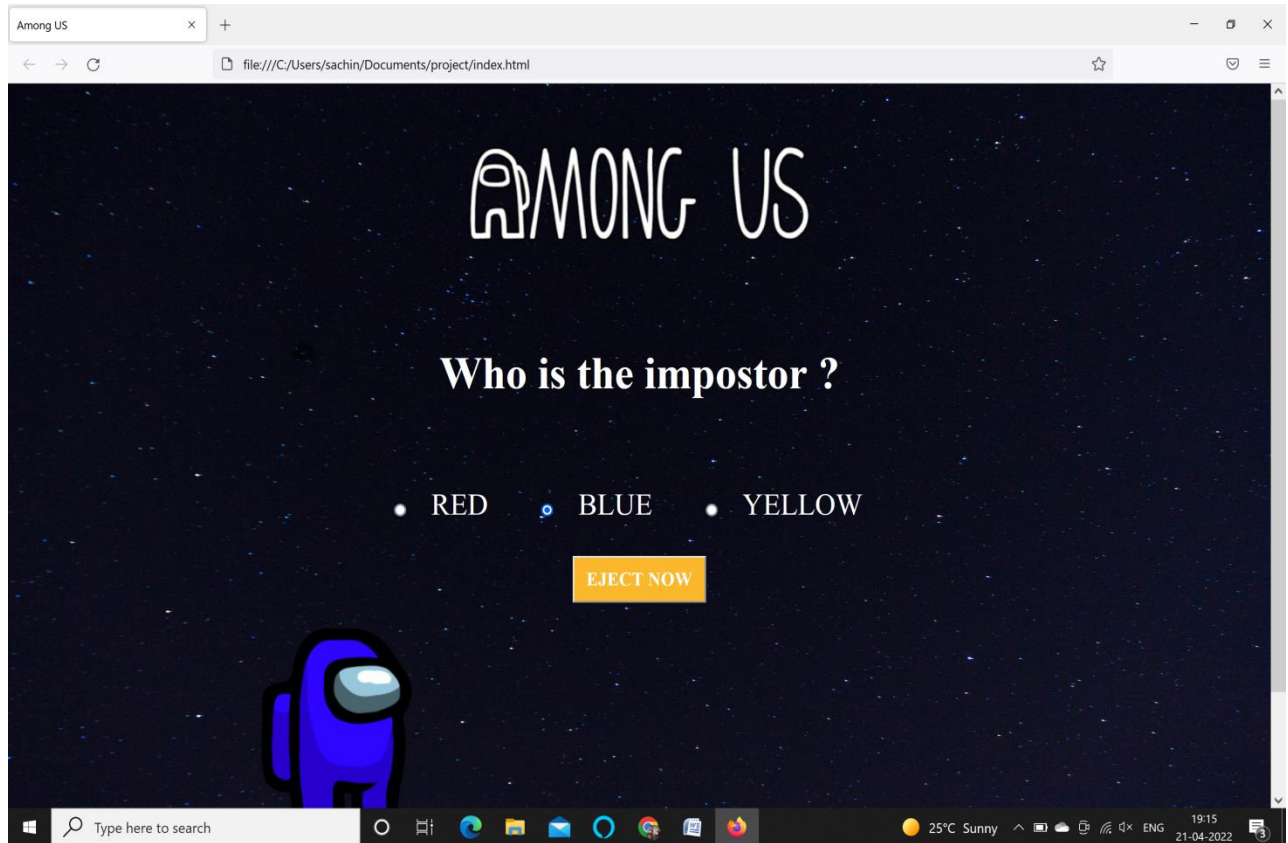

SCREENSHOTS:-

1) Main page→

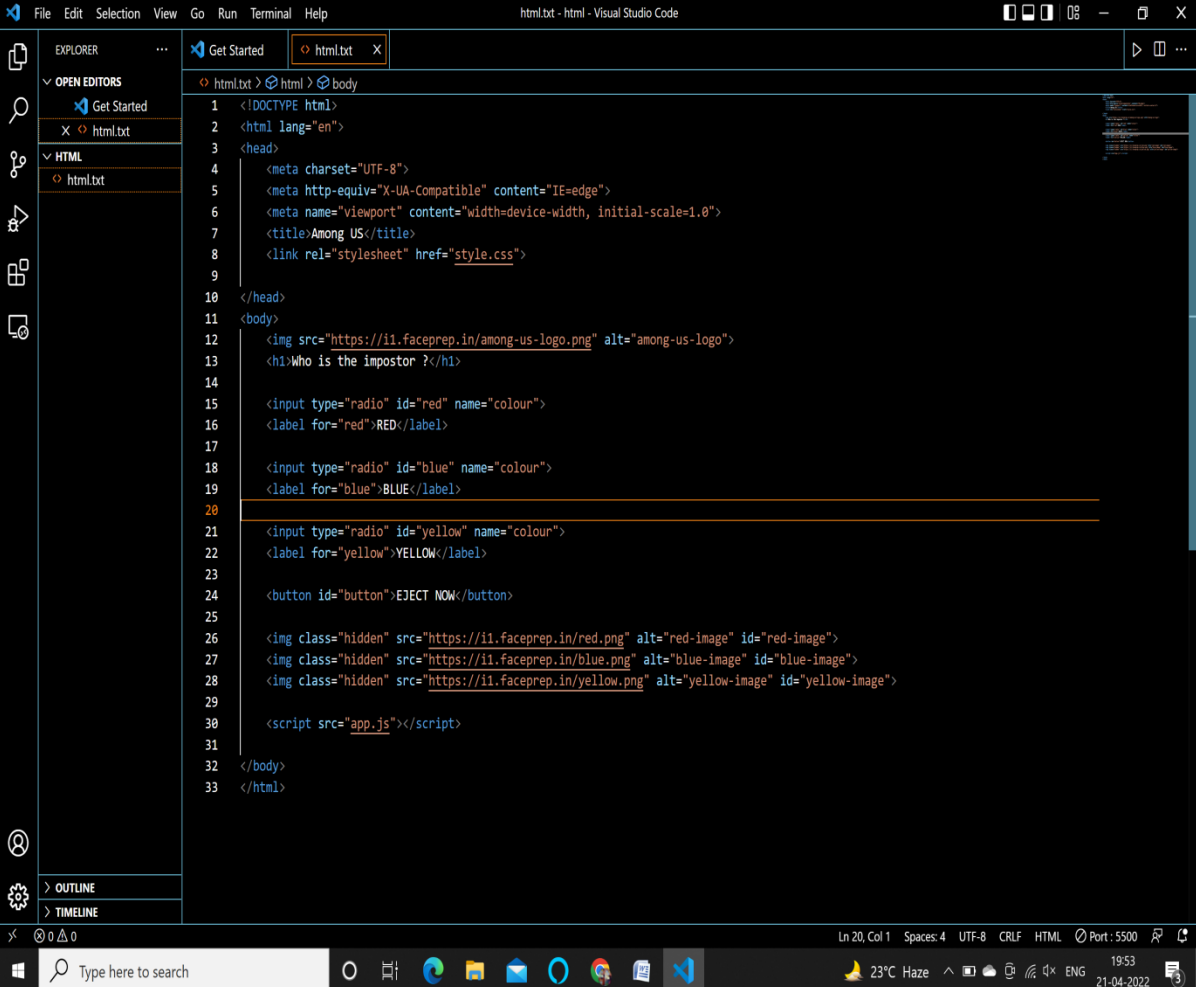

2) Implementation→

3) Code:->

1. HTML Code...

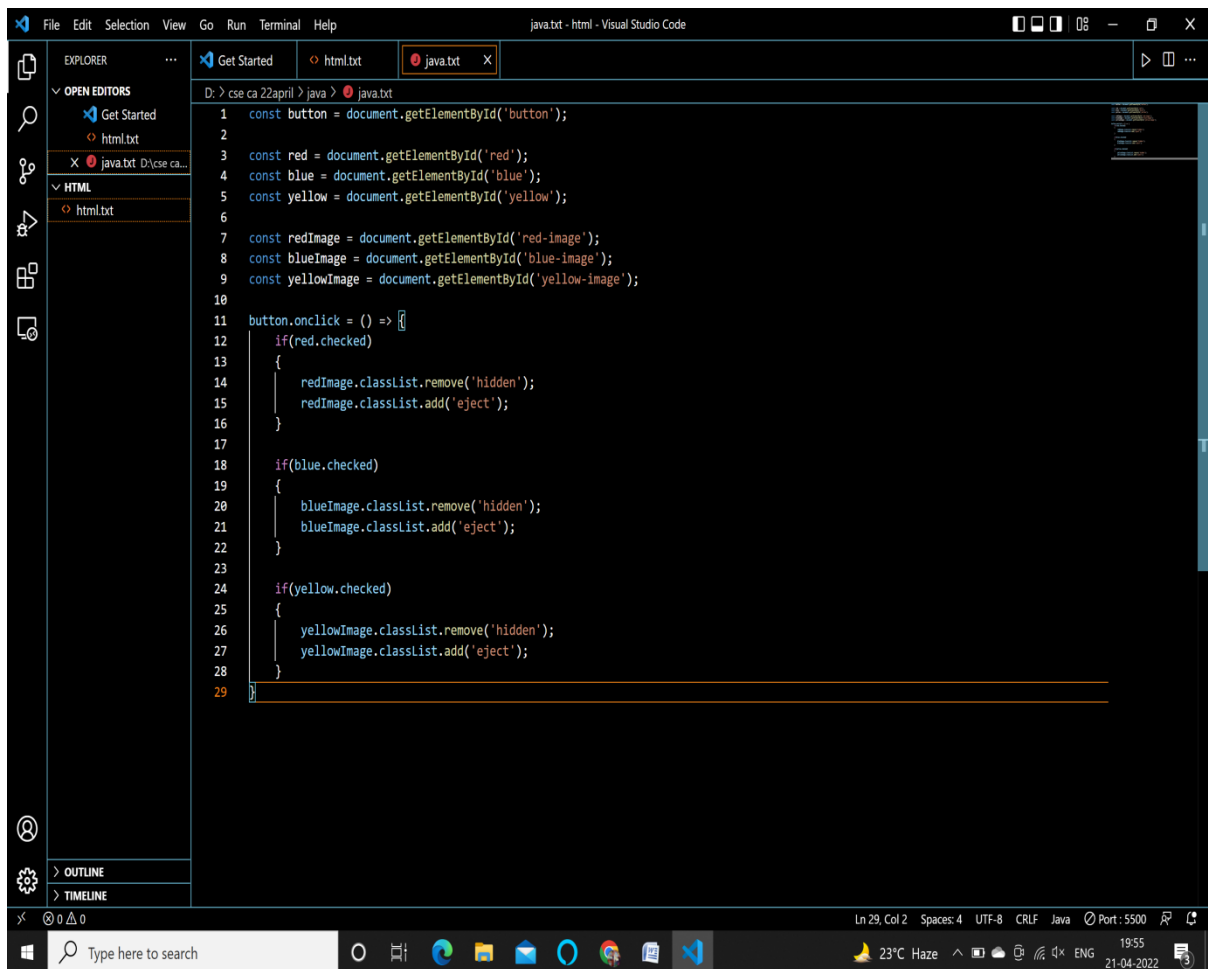

The screenshot shows the Visual Studio Code editor with a file named 'html.txt' open. The code is an HTML document with the following structure:

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta http-equiv="X-UA-Compatible" content="IE=edge">
6   <meta name="viewport" content="width=device-width, initial-scale=1.0">
7   <title>Among US</title>
8   <link rel="stylesheet" href="style.css">
9
10 </head>
11 <body>
12   
13   <h1>Who is the impostor ?</h1>
14
15   <input type="radio" id="red" name="colour">
16   <label for="red">RED</label>
17
18   <input type="radio" id="blue" name="colour">
19   <label for="blue">BLUE</label>
20
21   <input type="radio" id="yellow" name="colour">
22   <label for="yellow">YELLOW</label>
23
24   <button id="button">EJECT NOW</button>
25
26   
27   
28   
29
30   <script src="app.js"></script>
31
32 </body>
33 </html>
```

The status bar at the bottom indicates the current position is Line 20, Column 1, with 4 spaces, UTF-8 encoding, CRLF line endings, and the HTML file type. The port 5500 is also shown.

2. JAVA Code...

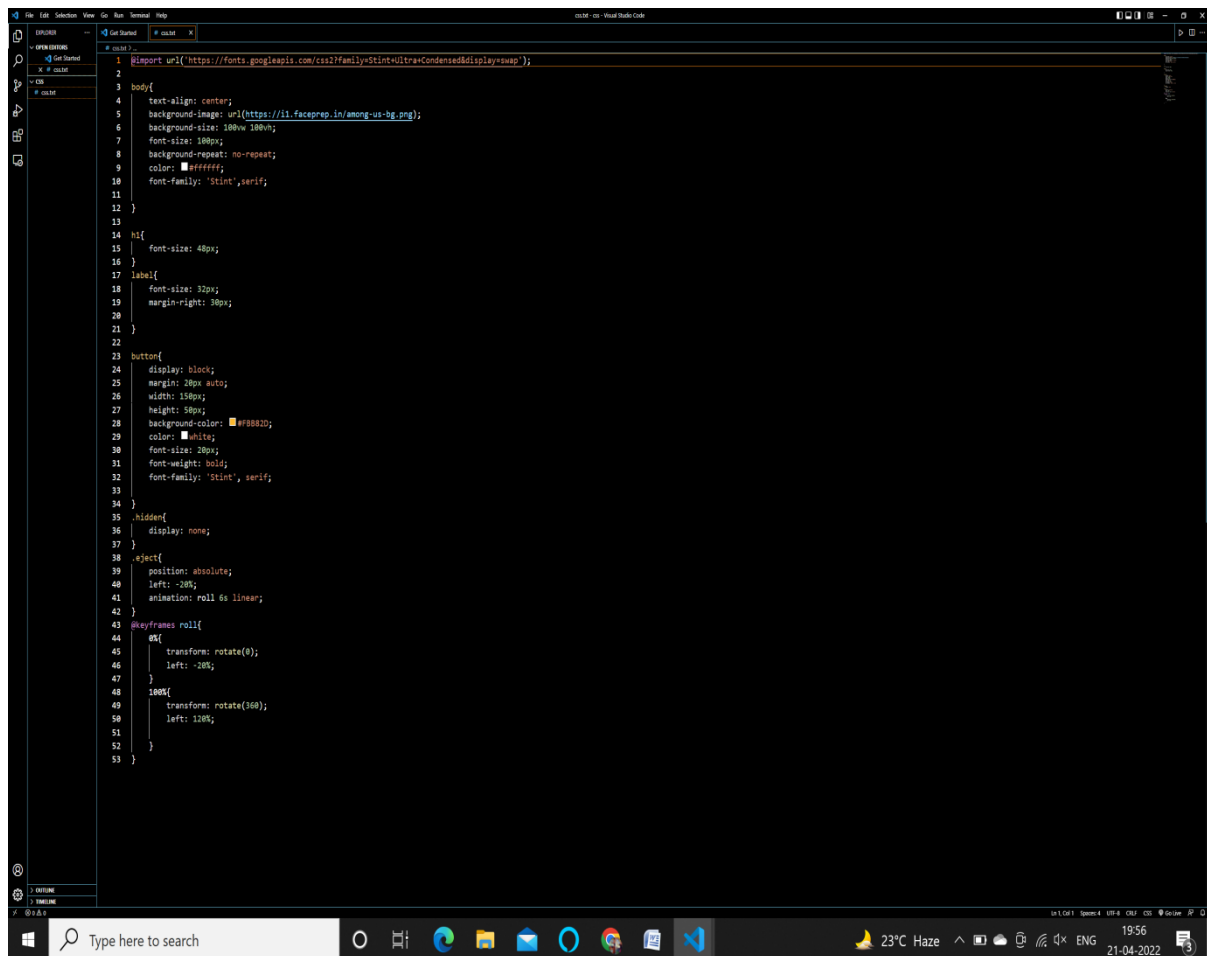

The screenshot shows the Visual Studio Code editor interface. The Explorer sidebar on the left displays the file structure with 'Get Started', 'html.txt', 'java.txt', and 'HTML' folders. The main editor area is open to 'java.txt', showing the following Java code:

```
1  const button = document.getElementById('button');
2
3  const red = document.getElementById('red');
4  const blue = document.getElementById('blue');
5  const yellow = document.getElementById('yellow');
6
7  const redImage = document.getElementById('red-image');
8  const blueImage = document.getElementById('blue-image');
9  const yellowImage = document.getElementById('yellow-image');
10
11 button.onclick = () => {
12     if(red.checked)
13     {
14         redImage.classList.remove('hidden');
15         redImage.classList.add('eject');
16     }
17
18     if(blue.checked)
19     {
20         blueImage.classList.remove('hidden');
21         blueImage.classList.add('eject');
22     }
23
24     if(yellow.checked)
25     {
26         yellowImage.classList.remove('hidden');
27         yellowImage.classList.add('eject');
28     }
29 }
```

The status bar at the bottom indicates the current position is Line 29, Column 2, with 4 spaces, UTF-8 encoding, CRLF line endings, and the Java language mode. The system tray shows the temperature as 23°C, weather as Haze, and the date as 21-04-2022.

3. CSS Code...

```
1 @import url('https://fonts.googleapis.com/css?family=Stint4:ultraCondensed&display=swap');
2
3 body{
4   text-align: center;
5   background-image: url('https://i1.faceprep.in/among-us-bg.png');
6   background-size: 100vw 100vh;
7   font-size: 180px;
8   background-repeat: no-repeat;
9   color: #ffffff;
10  font-family: 'Stint', serif;
11 }
12
13
14 h1{
15   font-size: 480px;
16 }
17 label{
18   font-size: 32px;
19   margin-right: 30px;
20 }
21
22
23 button{
24   display: block;
25   margin: 30px auto;
26   width: 150px;
27   height: 50px;
28   background-color: #88822D;
29   color: #white;
30   font-size: 20px;
31   font-weight: bold;
32   font-family: 'Stint', serif;
33 }
34
35 .hidden{
36   display: none;
37 }
38 .object{
39   position: absolute;
40   left: -20%;
41   animation: roll 6s linear;
42 }
43 @keyframes roll{
44   0%{
45     transform: rotate(0);
46     left: -20%;
47   }
48   100%{
49     transform: rotate(360);
50     left: 120%;
51   }
52 }
53 }
```

The screenshot shows a Visual Studio Code editor window with a CSS file open. The code defines a font, sets the background to a game image, and styles a large heading and a button. It also includes an animation for a hidden object.

Windows taskbar at the bottom shows the search bar, taskbar icons, and system tray with weather (23°C Haze) and date (21-04-2022).
